

your customers are waiting

There are **330M** mobile users in the US

they spend **2.8 hours** a day on their smartphones

more than they spend on their desktop

but they **don't** convert

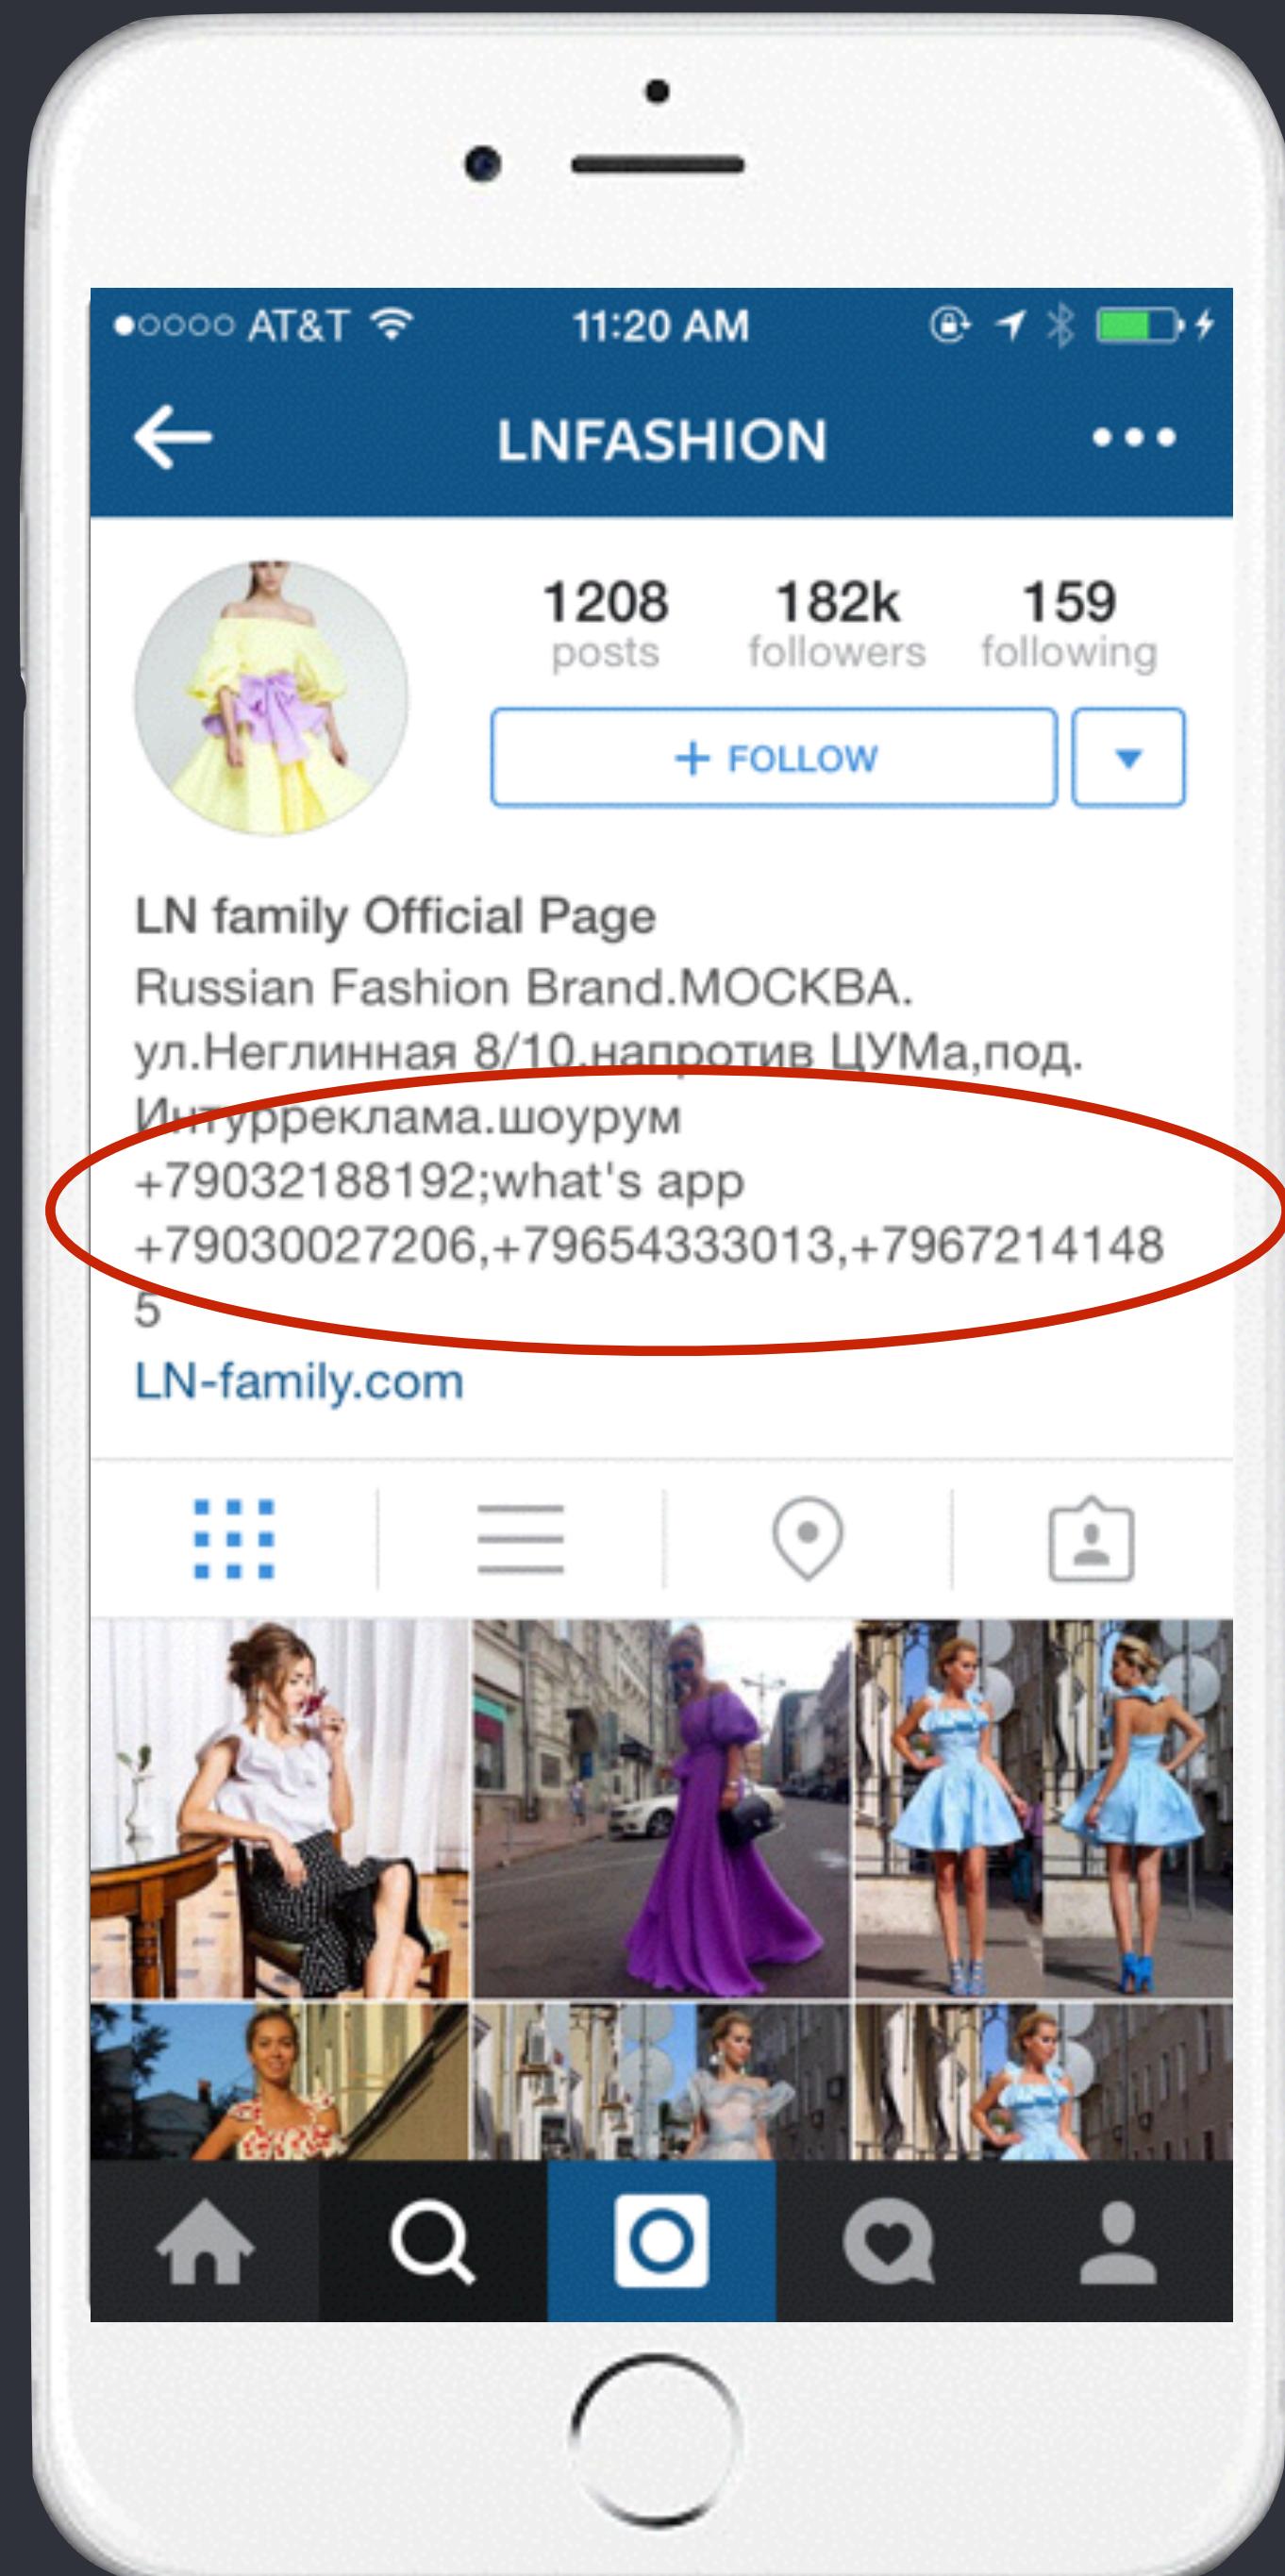

It's changing

LN fashion is a Russian fashion brand

they couldn't monetize on Instagram

they started promoting their whatsapp account

this is my transcript with them

Text is the future of online conversion

Why Text

Instant

non-disruptive

64% of customers **prefer texting**

SMS assists shopping increases **mobile conversion** by 72%

Millennials only text

But it's hard for businesses to do

One phone

Many customers

No user records

No Payment

No support

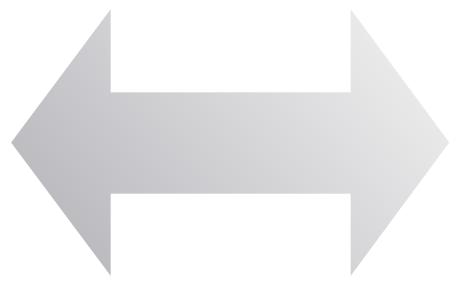

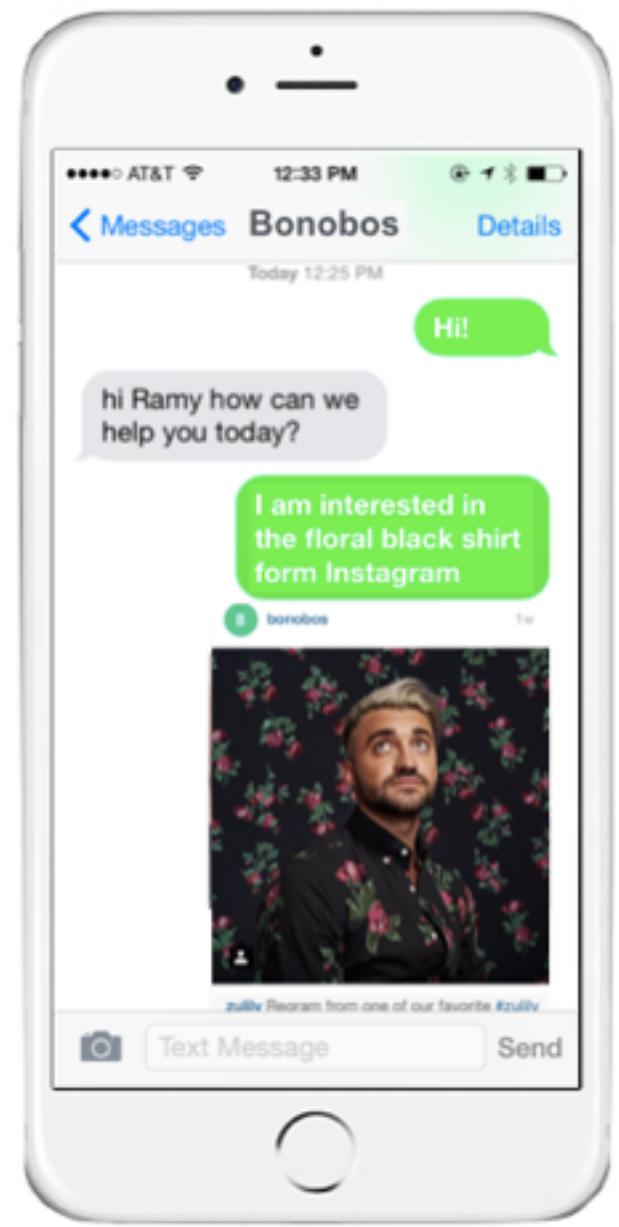

Kozmo solves these problems
